

Art & Design

Our Art curriculum is designed to instill an appreciation and wonder of art in its many forms. We want our children to express their creativity and appreciate that of others. Our curriculum builds on skills, knowledge and techniques through the study of different artists to encourage independent, resilient learners.

<u>Intent</u>	<u>Implementation</u>	<u>Impact</u>
• To develop a passion and appreciation of Art and Design. • For children to experience a curriculum that has breadth, depth and balance which encourages them to be imaginative and creative. • To promote careful observation and appreciation of the world around us. • To explore ideas and meaning through studying the work of artists and designers. • To develop knowledge of significant artists through the ages.	• Encourage and celebrate children's achievements through class books, assemblies and social media. • To focus on knowledge and skills. • To ensure all children gain 'real-life' experiences through art. • To follow the children's interests to ensure their learning is engaging, broad and balanced. • Visit local art galleries and parks. • Visits from artists. • Develop a range of skills.	• Feedback from the children about their experience. • The children have a sense of pride and achievement. • The children have an appreciation of artists, both historical and modern, and build opinions based on studying their work. • Quality work produced and displayed in sketchbooks and around school. • Children have the skills and knowledge to progress through their education. • Develop cultural capital through exposure to and appreciation of art, giving them opportunities and choices for a bright, successful future.
