

Curriculum Intent

Our curriculum is designed with our children and our community at the heart of it. It has been created to ensure we cater to our mixed age classes and to the needs of our children. Our curriculum ensures we teach the skills and knowledge our children need as they progress through their education. We realise we are in a unique 'Barmby Bubble' and understand it is imperative our curriculum offers our children the breadth, depth and balance needed to enhance their understanding of their home, their community and the wider world in which they live whilst developing their cultural capital and giving them opportunities and choices for a bright, successful future.
